

The Spectralink Varsity difference in healthcare

Purpose-built for hospitals, Spectralink Varsity smartphones deliver integrated end-to-end healthcare solutions that are unmatched in the industry.

Superior Mobile Devices

Leading voice quality
Call-control integration
Application partners
Enterprise-grade devices

Industry-Specific Mobile Apps

Alarms & safety alerts
Secure messaging
Enhanced workflows
Increased productivity

Mobile Analytics Platform

Easy deployment
Device management
Advanced diagnostics
Utilization metrics

Best-in-class voice quality

With Spectralink Voice Quality Optimisation, VQO™, mobile users can stay in touch with peers, doctors, lab personnel, and anyone else they need to reach. This engineered system delivers superior voice quality, with the clarity and reliable voice communications that are critical in a hospital environment.

Integrated mobile analytics platform

Spectralink AMIE keeps your smart devices running smoothly by simplifying configuration management, health monitoring, utilisation metrics and call-performance analytics.

AMIE makes it easy to:

- provision devices
- configure and manage applications
- monitor battery health and maintenance needs
- track missing devices and who had them last
- balance device utilisation across users, departments or shifts
- assess ongoing call quality
- access point signal strength and handoff performance to diagnose network issues.

Technology alliance partner ecosystem

TESTED | CERTIFIED | DOCUMENTED | SUPPORTED

Spectralink phones integrate seamlessly with a wide range of leading healthcare applications, UC platforms and wireless network vendors to provide complete end-to-end solutions.

Healthcare mobile application partners

Call server integration

Network infrastructure partners

Local support

The Connected Health team, together with our network of authorised partners, provides extensive pre- and post-sales support, with demonstrable knowledge of configuring and supporting complex end-to-end healthcare solutions

Warranty/SpectraCare

In addition to standard warranties, Spectralink offers enhanced, extended multi-year maintenance options to provide protection against things like user damage, liquid damage, and advanced handset replacement.
